Professional Experience

Product Design

PRODUCT DESIGNER

Accenture North America Product Design virtual experience program on Forage -
January 2024

Completed a simulation focused on how the Product Design team can transform a

- user's experience
- Added a new feature and iterated on an existing product screen
- Communicated the decisions made for the feature design

Skyscanner Front-End Software Engineering

Skyscanner Front-End Software Engineering virtual experience programme on Forage - January 2024

Completed a job simulation where I built a web application using React as a front-end engineer at Skyscanner.

Developed a page for picking a travel date using Skyscanner's open-source Backpack React library.

Customised my application and ran automated tests to ensure it rendered properly.

Walmart USA Advanced Software Engineering

Walmart USA Advanced Software Engineering Virtual Experience Program on Forage - February 2024

* Completed the Advanced Software Engineering Job Simulation where I solved difficult technical projects for a variety of teams at Walmart.

* Developed a novel version of a heap data structure in Java for Walmart's shipping department, showcasing strong problem-solving and algorithmic skills.

* Designed a UML class diagram for a data processor, considering different operating modes and database connections.

* Created an entity relationship diagram to design a new database accounting for all requirements provided by Walmart's pet department.
